THE CHOLERA -HIGHLY IMPORTANT

IF TRUE. We publish the following article at the request of a medical friend, as possessing the greatest interest. The writer Dr. W. B. Herrick, is the editor of the N. W. Medical and Surgical Journal, and worthy of the confidence of the profession.

We may mention, as elucidating the article, that ozone is formed in the air by decomposition of its water, through disturbances of its electrical equilibrium. Its nature and composition are uncertain. It has heretofore been detected in the atmosphere during the prevalence of epidemics, varying in quantity with the violence of the disease.

An ozonometer can be made by saturating a piece of paper in a solution of starch and iodide of potassium The smallest quantity

covered remedy for cholera.

above, are briefly as follows:

the fact that cholera is generally preceded by influenzas, as shown by its history, we were led to the conclusion that both diseases might be dependent upon the same influence, modified in degree according to the greater or less quantity of this deleterious agent present in the atmosphere at the time.

The next step in the investigation was to determine what agent would counteract the influence, and destroy the deleterious proper-

The accurate chemical knowledge of Dr Bird enabled him to suggest at once the wellknown substance sulphur, as possessing the property of acting upon it in such a manner as to neutralize its influence.

In searching for facts to support this conclusion, it was found that cholera had never prevailed in the vicinity of sulphur springs, or in situations where this substance abounds; hence the conclusion that sulphur might be, and probably was, the antidote for cholera.

In one of our recent medical journals, an article appeared, describing the method of detecting ozone in the atmosphere, thus supplying the means of determining whether or not it was present at the very time when cholera

Dr. Bird's experiments, as well as those made subsequently by himself and by Drs. recipe : Bird, Blaney, and myself, from day to day, portion to the severity of the disease from time spirits of hartshorn.

as a discovery The beneficial effects resulting from its use in my practice, was such as to convince me at once of its utility in the class of cases descri-

During the last few days, Drs. Bird, Blaney, and myself, have continued to use this apparently simple remedy, to the exclusion of nearly all others, in all cases with choleric symptoms. The result has been wonderful. All the premonitory symptoms, such as pain, a sense of fullness, unnatural movements, slight diarrhea, &c., have uniformly yielded at once to a single dose of three to four grains of sul-

pate entirely choleric symptoms.

worst stages of collapse, most satisfactory hands of the treasurer .- N. Y. Tribune. results have been obtained. In two or three cases of the kind the effect of the remedy has Protestant Episcopal Church in this Diocese, been to bring back pulse to the wrist, restore closed its session in St. Luke's Church, Saliswarmth to the surface, and stop the profuse bury, on the 27th ult. diarrhea and vomiting.

In truth, the results obtained, so far, have Report of the Committee on the state of the been such as to convince all of us, who have | Church :administered it, and witnessed its effects, that if any remedy deserves the appellation, this is a specific for cholera.

It having been determined to make this public statement, it is expected in return that no hasty conclusions will be made either for or against what appears to be a proposition to accomplish much by very simple means.

Although the results, so far as obtained, in a short time and by a few individuals, seem to justify our conclusions, it is hoped that physicians will continue to depend on what they consider the most efficient practice, in bad cases of cholera, until they shall have tested the matter themselves, and formed their own con- printed and circulated as soon as possible. clusions; and also, that whatever may be the confidence of individuals in this or any other remedy, they will not depend upon their own

to hold the Lutheran faith.

The Three Great Events in Europe .- Three reat events claim, at the present moment ur chief attention-the advance of the Russian troops into Hungary, the approach of a French army to Rome, and lastly, the prospect of a serious contest between all the existing governments of Germany and large masses of the people, already pledged to risk evocratic institutions. We believe that, in this country, these events are unanimously regarded by men of all parties with serious apprehensions and sincere regret. They bode no good to Europe or to the times we live in .-They menace the world with a conflict of extreme parties. But, as the tempest blackens day by day, it is impossible to deny that the chances of any rational compromise or adjustment of these differences diminish, and they are left more and more to the arbitration the treasury of the United States at as early a of the sword. Yet, even when this conflict day as practicable, without any abatement or has been fought and won, the victorious par- deduction on account of salary, fees, costs, ty, whichever it may be, will be alike embarrassed to restore the tranquillity of society whatever: Provided, That nothing herein and the authority of government, either by the of ozone in the air will be rendered manifest force of military despotism or by the license by the discoloration produced by the free of unlimited Democracy.

tets and Resolutions passed at the Second Ression of the Thirtieth Congress.

Public-No. 41.]-An Act requiring all monevs receivable from customs and from all other sources to be paid immediately into the treasury without abatement or reduc-

tion, and for other purposes. Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That from and after the thirtieth day of June, eighteen hundred and forty-nine, the gross amount of all duties received from customs, from the sales of public lands, and from all miscellaneous sources, for the use of the United States, shall be paid by the officer or agent receiving the same into charges, expenses, or claim of any description contained shall be construed to alter the existing laws regulating the collection of the revenues of the Post Office Department.

SEC. 2. And be it further enacted, That so much money as may be necessary for the payment of debentures or drawbacks, bounties and allowances, which are or may be authorized and payable after the day aforesaid, he and the same are hereby appropriated for that purpose out of any money in the treasury, to be expended under the direction of the Secretary of that department, according to the laws authorizing said debentures or drawbacks, bounties and allowances: Provided, That the collectors of the customs shall be the disbursing agents to pay the aforesaid debentures, drawbacks, bounties, and altowances; and that all debenture certificates issued according to law shall be received in payment of duties at the custom-house where the same has been ssued, the laws regulating drawbacks having

been complied with. SEC. 3. And be it further enacted, That it shall be the duty of the Secretary of the Treasury to submit to Congress, at the commencement of the next regular session, estimates of vide for the expenses of collecting the revenue from customs, and also from the public lands, for the second half of the next fiscal pose for the year ending the thirtieth June, eighteen hundred and fifty, and similar esti-

mates from year to year thereafter. Sec. 4 And be it further enacted, That so much money as may be necessary to pay the expenses of collections referred to in the next preceding section, including the first half of the next fiscal year, and until specific appropriations for the objects shall be made by Congress, be and the same are hereby approexpended after the thirtieth June, eighteen hundred and forty-nine, under the direction of the Secretary thereof, conformably to law and regulation: Provided, That the expenses of collecting the revenue from customs shall not thereafter exceed the sum of one million five hundred and sixty thousand dollars per annum, together with such sums as under the law are paid into the treasury for drayage, cartage, labor, and storage, and in proportion

Sec. 5. And be it further enacted. That from and after the thirtieth day of June next all imports subject to duty, and whereon the duties are not paid when assessed, shall be deposited in the public warehouse, from whence they may be taken out for immediate exportation under the provisions of that act, nent, worketh for us a far more exceeding at any time within two years, and on payment of the duties may be withdrawn for consumption within the United States at any time within one year; but no goods subject to duty shall be hereafter entered for drawback, or exhorted for drawback, after they are withdrawn from the custody of the officers of the wet condition, but upon exposing it to the customs: Provided, however, That nothing Representatives of the United States of Amerherein contained is intended to modify the ica in Congress assembled. Wonder and blessing of the Age!
THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.
This Extract is put up in quart bollies; it is sit times cheaper, pleasanter, and marranted superio to any sold. It cures without comiting, purging sickening and delibitation to be added. sickening or debilitating the patient.

The great beauty and superiority of this Sarsapari

SPRING & SUMMER MEDICINES ever known; it not only purifies the whole system, and strengthens the person, but it creates new, pure and rich blood: a power possessed by no other medicine. And in this lies the grand secret of its wonderful success.

The Old Dr's likeness, his family coat of signature across the coat of arms.

Principal Office, 102 Nassay at Nassa It has performed within the last five years more than 100,000 cures of severe cases of disease; at least 15,000 were considered incurable. It has saved the lives of more than 5,000 children during the two past seasons.
10,000 cases of general debility and want of nerous energy. Dr. Townsend's Sarsaparilla invigorates he whole system permanently. To those who have lost heir nuscular energy by the effects of medicine or indiscretion committed in youth, or the excessive indul-gence of the passions, and brought on a general physical prostration of the nervous system, want of ambition, entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any Invigorating Cordial. As it renews and invigorates the system, gives

activity to the limbs, and strength to the muscular system, in a most extraordinary degree.
Consumption Cured.—Cleanse and Strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs. Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or Profuse Expectoration, Pain in the Side, &c., have been and can be Spitting Blood.

New- York, April 28, 1847. Dr. Townsend-I verily believe that your Sarsaparilla ias been the means, through Providence, of saving my life. I have for several years had a bad cough. It becam worse and worse. At last I raised large quanties of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful

Rheumatism .- This is only one of more than four housand cases of rheumatism that Dr. Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly eradicated by its extraordinary vir-James Cummings, Esq., one of the assistants in the
